ALTEC LANSING®

inMotion™

PORTABLE AUDIO

Just listen to this!™

The First Portable Audio System Designed for the iPod!

You've got a gazillion hours of music stored on your iPod but until now, you've been the only one dancing. Introducing the Altec Lansing inMotion portable audio system. This tiny, ultra-portable, battery-operated stereo system is the first powered audio system designed exclusively for the iPod. A highly efficient Class D amplifier powers four full-range micro drivers to deliver a full spectrum of pure, distinct sound, while the revolutionary MaxxBass® technology allows listeners to enjoy deep bass without lugging large speakers around. Best of all, connectivity is as easy as placing your iPod into the built-in dock or connecting it through the auxiliary port.

Free inMotion Earphones Inside!

Introduce your ears to pure, portable bliss. inMotion earphones feature neodymium drivers that deliver rich, powerful audio. Their soft construction provides comfort on a higher plane. No heavy metal, so they're incredibly easy on your ears and head. They come in a tough little carrying case that you can wrap the cord around, yoyo-style.

iMplus with MaxxBass® Technology — 1 Piece System

Crystal-clear Sound – From four custom-designed neodymium 25 mm Micro Drivers.

Surprisingly Deep Bass – Revolutionary MaxxBass® technology creates quality bass without a subwoofer.

Built-in Docking Station – Provides same synchronization, data transfer, and recharging options as your iPod dock (cable not included).

Extra Long Battery Life – Highly efficient Class D amplifier delivers more than 24 hours of continuous playback with four AA batteries (not included).

Convenient Auxiliary Input Jack – For connection with other audio devices, including laptops, older iPods, and other MP3 players (cable included).

Lightweight Design – Folds to close at 15 ounces and 8" wide, 5.4" deep and 1.2" high.

Elegant, Integrated Controls

Universal Power Adapter – With international plug set included.
